Web Explorer Play Equipment	£14,950.00	<p>The introduction of the Daily Mile Track in 2017-2018 ensured all children have regular access to lower body and cardio exercise. The addition of the Web Explorer allows the development of children's upper and lower body strength, co-ordination, core stability and fine motor skills. The combination of 6 exciting challenges for the children to overcome makes this a group activity, encouraging cooperation, competition, and imaginative play. This fosters relationships, develops communication and builds confidence through teamwork.</p> <div data-bbox="969 619 1740 1200" data-label="Image"> </div>
